

Dealer Account Number

Dealer Support: Fax (800) 332-6544

Primary Account Number

The account number refers to a 4 digit line card that has been assigned to you from SAI. The remaining 4 digits represent the account number programmed into the panel. If you do not have an account number, please contact SAI to have one assigned to you for this account.

Secondary Account Number

The Secondary Account number refers to an additional transmitter at the same location, i.e. a Radio Transmitter, additional fire or burglary panel, elevator, etc. in which the call lists are identical between the two accounts. If you are not sure if you should use or need a secondary account, refer to "Choosing the Right Account Type" document found on the SAI Website: www.sai-inc.com

Zone Form

Required Items: All items on this form are required during a new account setup. If you make changes on an account you need to provide the dealer number, account number, and account name in addition to whatever changes you are making.

Subscriber Name:

Address

Street Address, please. No P.O. Boxes.

Apartment:

Apt, Suite, Development, etc.

D Signature :

ate:

By your signature you agree to the terms and conditions of your dealer agreement. You also certify that you have a subscriber agreement on record for this subscriber which contains similar limitation of liability provisions as your Dealer Agreement which apply to protect both you and SAI.

Zone/Signal	Zone Type	Secondary	Zone Description	Dispatch Process		
SAMPLE FA1	SAMPLE Fire	SAMPLE	SAMPLE Warehouse	SAMPLE P	SAMPLE FD	SAMPLE L1
SAMPLE BA1	SAMPLE Intrusion	SAMPLE	SAMPLE Front Door	SAMPLE P	SAMPLE PD	SAMPLE L1

Zone Deletes

Zone/Signal	Zone Type	Secondary	Zone Description – <i>Note: Zone descriptions cannot exceed 20 characters in length.</i>

Notes:

Zone/Signals represent the actual Signal being received by the central station.

See Zone Type List for zone type options.

Secondary ONLY needs to be specified if you have a secondary account transmitter. Then please specify if the signal is coming from the secondary account transmitter.

Zone description is the description of the intrusion, fire, or trouble signal that you would like to have said to the subscriber or dispatch agency.

Dispatch process is up to 3 call types that you would like to have done with each signal, i.e. P, PD, L1, would mean call Premise to verify (if no cancel), Dispatch Police, Notify Call List 1.

If the account you are sending in is using Contact ID or SIA format, SAI will install default signal templates to supplement signals that are not defined by you. You may go to the SAI website to see a listing of SAI's default template for Contact ID or SIA formats. If signals specified by SAI default templates are not what you want done, specifying them on the zones form will override SAI's defaults.

Zone Type Options

Panic/Duress (non-cancelable)	Medical	Shunting/Bypass
Critical Event	Trouble	Open/Close
Robbery/Holdup (non-cancelable)	Restore	Cancel
Intrusion (Burglar)	Timer Test	Log Only
Fire	Tamper	Fire Supervisory
	Video	Non-specific Supervisory

Dispatch Process

P = Verify/Notify Premise	L1 = Emergency Call List 1
PD = Dispatch Police	L2 = Emergency Call List 2
FD = Dispatch Fire	L3 = Emergency Call List 3
MD = Dispatch Ambulance	PT = Guard/Patrol Service
W = Dealer Notification via Web	2 = 2nd Verification
F = Dealer notification via Fax
